KELLY's RESTORATION ADVISORY BOARD TO MEET

KELLY AIR FORCE BASE, Texas – Kelly AFB's Restoration Advisory Board (RAB) will meet Tuesday, January 19, 1999. The meeting, held at Winston Elementary School, 2500 South General McMullen, will start at 6:30 p.m. and end approximately at 9:00 p.m.

The doors will open at 5:30 p.m. for viewing displays highlighting Kelly's environmental progress, including the proposed Corrective Measures Implementation work plan for addressing groundwater contamination at Site S-8. This site was the location of an automated parts cleaning facility known as the "Green Worm." The work plan proposes to upgrade an interim cleanup system at the site to achieve final cleanup goals. Kelly team members will be on hand to answer questions and take comments about this plan and other displays.

Another display will explain soil removal operations that will take place at Site S-1, a former storage yard at the base boundary next to the North Kelly Gardens neighborhood.

The RAB will be electing a new Community Co-chair for the 1999 term. The board will also discuss issues related to the cleanup of the soil and groundwater currently underway at the base. Time is set aside at every meeting for community comments and questions

Brigadier General Robert Murdock, Kelly AFB Co-Chair, encourages Kelly's neighbors to join RAB members reviewing the Air Force's environmental restoration effort.

2-2-2

This meeting's agenda includes various topics of interest to the neighborhoods around Kelly AFB. The Technical Sub-Committee will discuss current activities. A representative from the Base Conversion Agency regional office at Kelly AFB will present the agency's expanding role as the base's closure approaches.

Kelly officials created the Restoration Advisory Board in 1994. The RAB provides community input into the environmental cleanup of Kelly AFB. Members include local residents, community activists, environmental regulators, and local government representatives. RAB meetings are open to the public.

The RAB members review and comment on technical documents relating to environmental studies and restoration activities at Kelly AFB. Members are also asked to share their knowledge with their neighbors.
