### DOING BUSINESS WITH AFCEC

Headquartered at Joint Base San Antonio-Lackland, Texas, the Air Force Civil Engineer Center is responsible for providing responsive, flexible full-spectrum installation engineering services across the Air Force enterprise.

★ FEDBIZOPPS.GOV

All AFCEC solicitations are listed on the Federal Business Opportunities (FedBizOpps) website, the single government point-of-entry for U.S. federal government procurement opportunities over \$25,000.

For general Air Force contracting information, visit the Air Force Installation Contracting Agency website at <http://www.wpafb.af.mil/afica>.

### ENTERPRISE PROCUREMENT CLEARINGHOUSE REPORTS

The Clearinghouse Report is a list of projects that have been reviewed and cleared for execution by AFCEC based on mission, matching requirements with the best appropriate contract venue for execution. The most current Clearinghouse Report, as well as report archives, are available [here](#). Do not contact the installations listed as these projects will be managed by AFCEC.

Final decisions on the extent of competition, small business participation, estimated value or any aspect of the procurement action will not be made until each is initiated. The forecast data is for planning purposes only. It does not represent a pre-solicitation synopsis, does not constitute an invitation for bid or request for proposal and is not a commitment by the government to purchase the desired products or services.
