

## **ENERGY MANAGERS**

### **What can you do to save energy?**

- ④ Set up a competition between dorms or facilities to see who can conserve the most energy.
- ④ Provide energy training as part of newcomer briefings.
- ④ Replace outdated appliances with ENERGY STAR models and install efficient plumbing fixtures in dorms and facilities.
- ④ Incorporate efficient technologies such as ground source heat pumps in lieu of aging central heat plants.
- ④ Survey facilities and repair leaks in water supply and distribution pipelines.
