## **Kelly Restoration Advisory Board**

Responses to Action Items and Community Comments  
from the December 9, 2003 TRS meeting

---

**1. Provide copies of TDH Leon Creek fishing advisory report to RAB members**

Copies of this report are provided under the project update tab of your binder.

**2. Kelly to verify that Site OT-1 Air Emissions information has been reported to ATSDR**

We have not been able to verify that ATSDR received a copy of the report; however, the Air Force provided ATSDR with all documents that it had concerning Past Air Emissions. A final exhaustive list of all references utilized by ATSDR will accompany the Final Past Air Emissions Report.

**3. Provide listing of ITRC technical training available for consideration as RAB/TRS training.**

Copies of this list are provided under the project update tab of your binder.

**4. Provide updates on natural attenuation**

The Air Force will continue to provide updates in the environmental cleanup at Kelly.

**5. Provide copies of 2004 Annual Work Plan to RAB members for the development of future TAPP funding requests.**

Copies of this plan are provided under the project update tab of your binder.
