

KELLY AFB  
TEXAS

---

ADMINISTRATIVE RECORD  
COVER SHEET

AR File Number 3400.3

**The Kelly Air Force Base  
Restoration Advisory Board  
will meet on Monday, Dec. 12 at 6 p.m.  
at the City of San Antonio Fire Training Academy  
4531 S. Zarzamora**

---

---

***The public is encouraged to attend and participate in the discussions***

---

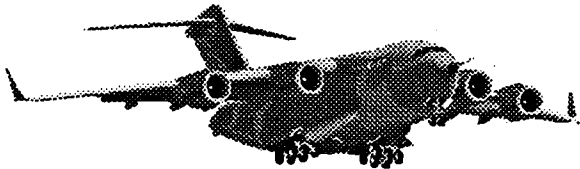

---

The board will be reviewing Kelly's proposed cleanup actions (feasibility studies and proposed plans) for a shallow layer of water beneath the golf course, the industrial area, and the southern portion of the base and adjoining off-base areas. Relative risk evaluation of all Kelly cleanup sites also will be discussed. Anyone desiring additional information can call or write:

The Feasibility Study develops and analyzes various final cleanup alternatives and provides recommendations for appropriate actions. Kelly's Proposed Plans are based on these recommendations and are subject to review by the public and the Texas Natural Resource Conservation Commission. Fact sheets summarizing the Proposed Plans will be available prior to the start of the mandatory 30-day public comment period.

## **Kelly Air Force Base Restoration Advisory Board**

**will meet on Dec. 12 at 6 p.m.  
at the City of San Antonio  
Fire Training Academy  
4531 S. Zarzamora**

.....  
**The meeting is open to the general public**  
.....

**The Restoration Advisory Board ensures that all community members, on and off the base, have a voice and can actively participate in a timely and thorough manner in the review of Installation Restoration Program documents and decisions. Kelly's restoration program seeks out, investigates and, when necessary, cleans up past waste disposal and spill sites. Board members include private citizens, members of community groups, Kelly employees, and representatives of the Texas Natural Resource Conservation Commission, the Metropolitan Health District and Bexar County.**

**The meeting agenda includes:**

- nomination of new members to the board**
- presentation of Kelly's proposed plans for the final cleanup of a shallow layer of underground water beneath the golf course, the southern and industrial areas of the base and adjacent off-base commercial and residential areas**
- overview of a new method of ranking sites according to any relative degree of risk that each site may pose to human health and the environment**

**Additional information about the Installation Restoration Program is available at two Kelly Air Force Base Information Repositories located in the business, science and technology section of the Main San Antonio Library and at the Kelly Air Force Base Library. Information also is available by calling or writing:**
