Background Soil Sample Collection Area (1/4 acre)

DRMO

Landfills 030/031

Alert Aircraft Area

Integrated Maintenance (Building 5306)

SS071 (Jet Engine Test Cell Septic Field)

Storm Sewer Line

Base Operation Apron

Prior Air Force WWTP Drying Bed

SS-09

Maintenance Hangar (Building 5063) and Sanitary Sewer Line

KC-135 Crash Site

Buildings 5091 and 5092

Sanitary Sewer Line

Site WP004

Soil TCRA Location

Prior Air Force WWTP Drying Bed

Fire Training Area and Clark's Marsh

Prior Air Force WWTP Lagoon

Prior Air Force Seepage Beds

Pond 1

Au Sable River

Van Etten Lake

Notes:
Installation Boundary obtained from the United States Air Force.
PFOS results compared to DOD Residential Soil Screening Level of 13 µg/kg.
PFOA results compared to DOD Residential Soil Screening Level of 19 µg/kg.
PFBS results compared to DOD Residential Soil Screening Level of 1,900 µg/kg.
Screening values are the USEPA RSLs (USEPA, 2023) included in DoD investigations.
µg/kg = micrograms per kilogram
USEPA = United States Environmental Protection Agency
DoD = Department of Defense
RSLs = Regional Screening Levels
PFOS = perfluorooctane sulfonate
PFOA- perfluorooctanoic acid
PFBS = Perfluorobutanesulfonic acid
DRMO = Defense Reutilization and Marketing Office
WWTP = Wastewater Treatment Plant
TCRA = Time-Critical Removal Action

Legend
- Soil Boring with Results Exceeding DoD Screening Levels
- Soil borings with Results Below DoD Screening Levels and ECO Screening Values
- Extent of Excavation
