

ERPToolsX Training Registration

ERPToolsX Training is designed to instruct a user in the software, steps, and procedures necessary to successfully enter reported data into the application. The training includes how to create, open, edit, delete and close Prime and Lab Projects as well as validate table, group, and delivery data prior to subsequent final delivery to AFCEC.

ERPToolsX Training at this time will be provided via a MS Teams Meeting on dates listed below. MS Teams Meeting Classes will have unlimited attendance. To Register: Complete this form. Make sure you select a course date, then email to afcec.czra.erpims@us.af.mil

For questions contact:

ERPIMS Data Support (888) 656-8865 or afcec.czra.erpims@us.af.mil
