

Department of the Air Force PFAS Snapshot

Per- and polyfluoroalkyl substances (PFAS) are a group of synthetic fluorinated chemicals. Perfluorooctane Sulfonate (PFOS) and Perfluorooctanoic Acid (PFOA) are two organic chemicals within the PFAS group that were used in industrial and consumer products such as nonstick cookware, stain-resistant fabric and carpet, some food packaging and specialized foam.

In 1970, the Department of the Air Force (DAF) began using the firefighting agent Aqueous Film Forming Foam (AFFF) which contained PFOS and PFOA. AFFF is the most efficient extinguishing method for petroleum-based fires and is widely used across the firefighting industry, to include all commercial airports, to protect people and property. On May 19, 2016, the EPA established a lifetime Health Advisory or HA level of 70 parts per trillion for PFOS and/or PFOA in drinking water. The EPA HAs are non-regulatory and not enforceable; however, under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), DAF uses it to determine an action level for PFOS/PFOA in drinking water. The illustration depicts DAF progress through the CERCLA process.

RESPOND

Air Force Drinking Water Response Actions:

- Bottled water
- Point-of-use filtration
- Whole-house filtration
- Municipal Water Supply hookup
- Municipal Water Treatment
- New well drilling

Installations Status Update*

Active/Reserve Installations

Cannon AFB, NM: 3 off-base drinking water sources above EPA HA; BWP, FSI at 3, sampling completed. Engineering Evaluation Cost Analysis–Pilot Study May '21

Dover AFB, DE: 9 off-base private wells above EPA HA; 9 FSI, sampling ongoing

Eielson AFB, AK: GAC system installed at on-base water treatment plant; AF signed interim record of decision to connect residents to municipal water. 93% of all eligible properties have been connected to municipal water by Oct. '22

Ellsworth AFB, SD: 23 off-base residential wells above EPA HA; 1 well connected to base water supply, 3 wells connected to city water; FSI at 15 wells, 1 ion exchange system installed at a mobile home park, BWP to 3 residences, sampling completed

Fairchild AFB, WA: 2 municipal wells above EPA HA; FSI and 1 well in non-active. 106 off-base residential wells above EPA HA; 89 FSI, 7 residences connected to city water, BWP to 19 residences

Goodfellow AFB, TX: 29 residential wells above EPA HA, BWP, sampling completed, POETS installation complete for 13 off-base wells, 3 POETS in-progress; 2 POETS pending installation

Homestead ARB, FL: Sampling completed; POETS operating at 3 off-base private wells above EPA HA; BWP at 2 additional locations while monitoring continues to evaluate a one-time EPA HA exceedance

Hurlburt Field, FL: 2 wells above EPA HA; BWP, sampling completed

JBer-Fort Yukon LRRS, AK: 1 on-base well above EPA HA, BWP, filtration system planned

JB McGuire-Dix-Lakehurst, NJ: 2 on-base wells above EPA HA; FSI. Constructed new public water system; awaiting approval for permit to operate. 6 off-base wells above EPA HA; 6 connected to municipal water

JBSA Randolph, TX: 5 residential wells above EPA HA, 1 of 5 wells abandoned; BWP; sampling completed, POETS installation in-progress at 3 wells, 1 well connected to public water supply in-progress

Little Rock AFB, AR: 4 off-base residential wells above EPA HA, 2 of the 4 on POETS, 1 BWP, 1 residence not currently occupied; sampling completed

Luke AFB, AZ: 3 off-base residential wells above EPA HA. 3 public utility wells and 2 distribution points above EPA HA; FSI and community of ~1,630 residences transitioned off BW, sampling completed, 2 of 3 residential hot-tap hookups completed, 1 in coordination

McConnell AFB, KS: 3 residential wells above EPA HA; 1 location connected to municipal water supply; BWP; sampling completed

Mountain Home AFB, ID: 2 on-base drinking water wells above EPA HA; one well taken offline and replaced by another well below EPA HA; second well decommissioned and facility connected to base drinking water supply system below EPA HA. Off-base sampling completed

New Boston SFS, NH: 1 on-base drinking water well above EPA HA; FSI; off-base sampling not recommended at this time. On-base drinking water wells are sampled on an annual basis and are below state MCLs

Peterson SFB, CO: 42 municipal wells with FSI, 21 private wells with FSI (servicing 30 residences), 2 private wells with FSI at a mobile home park, 2 private wells connected to city and BWP at one 1 private well; sampling completed

Scott AFB, IL: 1 off-base residential well above EPA HA; FSI; sampling completed

Shaw AFB, SC: 3 public water systems, 3 business and 33 residential wells above EPA HA, BWP to 245 residences and 3 businesses; sampling ECD Mar '24

Tinker AFB, OK: 7 off-base private wells above EPA HA; BWP; sampling completed; POETS installation in-process at 2, 5 are being connected to municipal water.

Travis AFB, CA: Three off-base residential wells above EPA HA; FSI. System effluent samples are below EPA HA. BW discontinued Dec '21. O&M sampling conducted in Oct '22; systems effluent remains below HA

Wright-Patterson AFB, OH: 2 on-base wells above EPA HA, GAC system installed. Off-base drinking water well sampling completed, no private drinking water wells above EPA HA, one off-base storm water outfall discharge exceeds EPA HA. Conducting a NTCRA to select remedy to capture and treat PFAS-impacted water

BRAC Installations

Former Castle AFB, CA: 3 private wells above EPA HA, FSI at 3

Former George AFB, CA: 1 private well above EPA HA; BWP

Former K.I. Sawyer AFB, MI: 1 private well above EPA HA; FSI

Former March AFB, CA: 1 public well above EPA HA; treatment system on-line, cooperative agreement in place. 2 private wells above EPA HA; connected to public water supply

Former Mather AFB, CA: 1 private and 2 public wells above EPA HA; BWP for private well. FSI and O&M of system by purveyor for one public well. Air Force refurbished existing alternate well for replacement of the other public well

Former Pease AFB, NH: 2 public wells above EPA HA; both treatment systems on line, cooperative agreement in place. 5 private wells above EPA HA, 2 connected to public water supply, 2 FSI, 1 shutdown. 6 private drinking water wells above NH MCLs, 1 connected to public water supply by NH, 1 FSI by NH, 2 BWP provided by AF per OSD guidance, 2 FSI by well owners

Former Plattsburgh AFB, NY: 4 private wells above EPA HA; 3 FSI, 1 BWP. 3 private wells above NY levels, FSI by NY for the 3 wells

Former Reese AFB, TX: 258 private wells and 4 public wells above the EPA HA and/or Texas Protective Concentration Limits; 1 public well replaced by connection to City of Lubbock supply, 251 FSI, remaining BWP

Former Wurtsmith AFB, MI: 1 private well above EPA HA; connected to public water supply

ANG Installations

Barnes ANGB, MA: 2 municipal wells above EPA HA; treatment system online

Biddle ANGB (Formerly Horsham), PA: Under Administrative Order. 2 on-base drinking water wells above EPA HA; temporary FSI and BWP. 65 off-base private wells above EPA HA; 64 private wells connected to municipal water; 1 connection planned. 5 municipal wells above EPA HA; providing alternate water source while municipal GAC filtration systems are constructed

Gabreski ANGB, NY: 2 municipal wells above EPA HA, FSI on both; all residential wells hooked up to municipal water

Montana ANGB, MT: 1 off-base residential well above EPA HA; FSI

Morris ANGB, AZ: 3 off-base residential wells above EPA HA; all connected to municipal water

Otis ANGB (JB Cape Cod), MA: No residential wells above EPA HA, 123 municipal water connections completed (112 based on HA; 11 based on MA MCL). Wellhead treatment on 2 municipal wells (1 based on HA; 1 based on MA MCL). Periodic sampling of private wells. Based on MA MCL: 2 additional public water wells impacted (wellhead treatment underway) and 1 private well impacted (BWP)

Shepherd Field (Martinsburg) ANGB, WV: 1 municipal well above EPA HA. GAC system installed and functioning since December '17

Toledo ANGB, OH: 1 off-base residential well above EPA HA; residence connected to municipal water supply; well closed

Non-AF led Drinking Water Responses

Barnes ANGB, MA

Harrisburg IAP, PA

Joe Foss Field, SD

Luke AFB, AZ

New Castle ANG, DE

Stewart ANGB, NY

*State MCL data included in updates as allowed per OSD policy stated in the [Dec 2021 OSD Memorandum](#) regarding DoD PFAS drinking water standards

Key

BWP = Bottled Water Provided
ECD = Estimated Completion Date
EPA HA = 2016 Environmental Protection Agency
lifetime Health Advisory

FSI = Filtration System Installed
GAC = Granular Activated Carbon
MCL = Maximum Contaminant Levels
OSD = Office of the Secretary of Defense

O&M = Operations & Maintenance
POETS = Point of Entry Treatment System
NTCRA = Non-time Critical Removal Action
